

# The Rodin Nautilus<sup>®</sup> 5 Tap System

- *Unique patented slip clutch valve*
- *Anti drip tap valve system*
- *Non scale, non corrosive valve for longer life*
- *No washer damage*
- *Valve cannot be overtightened*
- *Minimal grip required for opening or closing taps*
- *Reduced maintenance*
- *Full range of taps & mixers*

basin tap EU 3001  
bath tap EU 3040

pillar tap EU 3020

deck mounted EU 3050

mono basin mixer EU 3012

mono sink mixer EU 3032

deck mounted bath/shower EU 3054

deck sink mixer EU 3030

## Ease of operation

These valves operate with a very light grip so they are suitable for everyone from adults to children ***plus a significant advantage for the elderly and many disabled people with grip difficulties.***

## Slip clutch mechanism

This prevents overtightening so the same tap can be easily turned on and off by the frail or those with a strong grip.

## Wear and tear protection

The unique construction achieves minimum moving parts, non rotating valve seat and a slip clutch mechanism, all of which extend valve life, ensuring reliability even under high duty service.

## Scale and corrosion

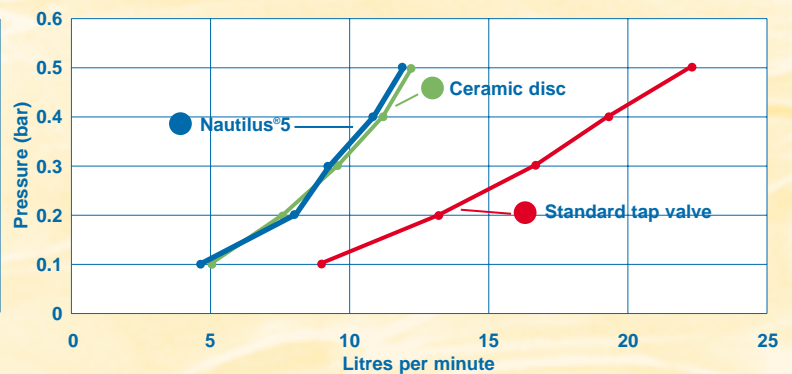

There are no metal parts and the synthetic material not only withstands high temperature but is resistant to limescale, corrosion and bacteria which means the valve is always clean.

All these features and benefits mean reliability, non dripping taps and reduced maintenance.

## Flow rate at low delivery pressure

Delivery pressure (bar)	Nautilus flow rate (L/m)	Ceramic disc flow rate (L/m)	Standard tap valve flow rate (L/m)
0.1	4.9	5	9.2
0.2	7.9	7.7	13
0.3	9.8	9.6	16.8
0.4	11.1	11.3	19.3
0.5	12.3	12.5	22.2

*Independent testing*

## Valve technical specification

Withstands pressures up to 15 bar

Temperatures up to 94°C (194°F)

Long life - over 250,000 open/close cycles ( $\pm$ 15 years of use)

Seat depth suitable for 22mm - 28mm

## Suitable areas of application

A full comprehensive range of taps aimed at the functional cost effective market such as:

- Housing Associations • Councils and Government
- Educational/recreation centres • Sheltered accommodation
- Nursing and residential homes etc.

The manufacturers reserve the right to change the specification without notice.

*Nautilus®5 is the registered Trade Mark of RPC Peshovich*
